30 Bellefontaine Neighbors Police Dept

Agency Public Comments:
Our City borders multiple other municipalities and jurisdictions, which are interconnected with the remaining 80-90 specifically identifiable areas within St. Louis County. Transient motorists are a commonality on the state, county, and municipal roadway systems within our City making it a major crossroads that is consistently accessed by non-residents. During this period, Non-Resident Stops represented approximately 82% of the total vehicle stops in our City (Table 1). The Location of Stop is primarily on County roadways at a total rate of 65%. County roadways are the major thoroughfares used to pass through our jurisdiction by non-residents (Table 4). This belief is also supported by Table 2, whereas 82% of the total stops (White 95%, Black 81%, Hispanic 100%, and Other 95%) were not residents of the City at the time of the stop. Information gathered on resident, race, gender, and age status may be misrepresented by the driver at the time of the stop. The data does not include measurable information such as 1) the volume of total non-resident motorists that were not stopped during this period, 2) the volume of individual ethnic, gender, and age groups among the volume of the total non-resident motorist group and 3) the exclusion of motorists who do not have a driver's license which implies that every individual age 16+ has a driver's license and drives a vehicle. This also excludes individuals between ages 15 and 16 that are permitted by law to obtain a driver's license permit to drive a vehicle. The Vehicle Stops Report is open to extremely broad and very shallow conclusions as the interpretations of the outcomes provided cannot give rise to any legitimate and credible argument of such since this can neither be proven or disproven. The margin for error in the report has a high probability for

misrepresentation in its findings.

43 Bloomfield Police Dept

Agency Public Comments:

44 Blue Springs Police Dept

Agency Public Comments:
The City of Blue Springs is in The Kansas City Metropolitan area along Interstate 70 and US 40 Highways. This route is heavily traveled between Kansas City and St. Louis with both in State and out of State travelers. Within the City, and near the Interstate 70 corridor, are many restaurants and retail businesses to include a large shopping complex at Interstate 70 and Adams Dairy Parkway. In addition, the Blue Springs School District attracts a large number of students and visitors who are not actual residents of the City. These daily travelers greatly affect the population levels outside of those reflected in the State population estimates of drivers 16 and over, which in turn has an impact on the disparity index.

The City of Blue Springs has made a strong commitment to protect citizens, both residents and non-residents, from racially motivated or bias based profiling. In addition to the mandatory annual Racial Profiling training required by the State of Missouri, the members of the Blue Springs Police Department, both sworn and civilian, have been given additional POST certified training in this area.

Agency Public Comments:

46 Bollinger County Sheriff's Dept

Agency Public Comments:

47 Bonne Terre Police Dept

Agency Public Comments:

48 Boone County Sheriff's Dept

Agency Public Comments:
The population estimate used to analyze the 2022 Boone County Sheriff's Office's traffic stop data was 149,127, while the U.S. Census Bureau estimated Boone County's population to be 187,690 in 2022.

Boone County is a regional employment hub in mid-Missouri and home to numerous college campuses, numerous hospitals, clinics, businesses, sporting events, and entertainment venues. Visitors are drawn to Boone County resulting in temporary population increases at various times throughout each year. Boone County also has the convergence

of two major highways (Interstate 70 & U.S. Highway 63).

In 2022, 91% of the time deputies didn't know the driver's race prior to the traffic stop and approximately 30% of drivers stopped were non-residents. The US Census Bureau reports the demographic makeup by race in Boone County very differently than what was used for the benchmark to figure the disparity index by race. For example, the US Census Bureau indicates the following percentages for each race and the percentage used to compute the disparity index is in parenthesis: White alone – 78.0% (82.08%); Black or African American alone – 10.0% (8.53%); Hispanic or Latino – 3.7% (3.16%); American Indian and Alaska Native alone – 0.5% (0.24% for only Native American); Asian alone – 5.0% (4.69%). Finally, 3.5% of Boone County's population identify as "Two or More Races" and may appear to be a part of any race listed.

Racial disparity based on raw traffic stop data in comparison to the local population is not indicative of any underlying issues absent consideration of other socio-economic factors. As a CALEA accredited agency, we continually train our staff on unbiased policing and recognizing bias. We also continually evaluate enforcement activities, disparity numbers, and complaints to identify potential areas for improvement.

Agency Public Comments:
The City of Bridgeton is in northwest St. Louis County with a portion of St. Louis Lambert International Airport within its boundaries. The city has a relatively low population for its 15 plus square mile footprint. There are three major highways; namely, I-70, I-270, Hwy 370, and US 67 that run through the city. Also, St. Charles Rock Road and Natural Bridge Road are major thoroughfares which also run through the City of Bridgeton. The city has a large retail/commercial/manufacturing presence within its boundaries which accounts for a large amount of non-resident motorist traveling to work within the city. These businesses include Walmart, The Home Depot, Target, Kohls, Hussmann, DePaul Hospital and Davidson to name a few. Because of the proximity to the airport, the City of Bridgeton is home to 12 hotels/motels which account for a large transient population.

Agency Public Comments:
A large portion of our agency's traffic stops occur on Hwy. 171 which is a major highway connecting Southeast Kansas and Southwest Missouri, Hwy. 49 to Arkansas, and Hwy. 71 to Kansas City. It also provides the main road between Pittsburg State University in Kansas to Joplin, Missouri. This also makes it a popular corridor for drug transportation between the states. Also, I believe there is an assumption that the officers know the race of the driver of the vehicle before it is stopped in your data collection. The truth is there is an average 13.5 hours of daylight during the year, it is very difficult, if not impossible to tell the race of drivers during night time hours, and it is my observation that it is not always possible to determine the race of a driver before a traffic stop during daylight hours. There is a 'time of stop" space on the traffic stop data sheet, but it is not asked for on the report. Due to this corridor, and the amount of our traffic stops on that roadway, there is a much larger range and percentage of all races/ethnicities passing through that is not reflected in our city population. I believe that due to this, it skews our VSR report when looking at our population statistics only.

Agency Public Comments:

179 Gladstone Dept of Public Safety

Agency Public Comments:
Gladstone is considered an "inner tier" suburb in the Kansas City Metropolitan Statistical Area. It is completely surrounded by Kansas City, MO, a densely populated urban center with significantly different demographics than Gladstone. Kansas City's white population is approximately 60% as opposed to Gladstone's ¿84% white population. While Gladstone is primarily residential, it does have vibrant and active retail areas. These retail districts include big box stores such as Walmart and Home Depot in addition to grocery stores and other retail businesses. Because of these districts and the overall location of Gladstone, there are multiple thoroughfares and arterial roads running through the city. These roads are used by many residents of surrounding municipalities to connect to the multiple state and interstate highways that run just outside of Gladstone's city limits in addition to patronizing our businesses. When viewed from that context, it appears that at any one time, the majority of people operating vehicles inside the corporate city limits of Gladstone are not its residents. As demonstrated by submitted statistics, approximately 73% of the stops conducted by our officers are on vehicles operated by non-residents of the driving age population using your 2021 population statistic. Since the numbers clearly show the vast majority of individuals contacted

by Gladstone officers during vehicle stops are not residents, comparing the demographics of these drivers to the demographics of Gladstone's residents will result in flawed conclusions. Finally, as a CALEA nationally accredited organization, the Gladstone Police Department is continuously providing training to its members on such topics as bias-based policing and legal updates to ensure a well-trained, professional police force utilizing best practices in our profession.

Agency Public Comments:

218 Independence Police Dept

Agency Public Comments:
Independence is the fifth-largest city in Missouri, county seat and immediate suburb of Kansas City, with a population of 117,217. Ten major Interstates, highways and roadways allow direct access to the multiple racially diverse Kansas City metropolitan attractions located in the community; Harry S. Truman Presidential Library and historic home, Silverstein Eye Centers Arena , Super-Regional Independence Center Shopping Mall (2nd largest in KC Metro area with approximately 12 million annual visitors), 39th Street retail area, AMC 20 movie theater complex, Crysler Baseball Stadium, Community of Christ International Headquarters, colleges, community festivals, and multi-cultural dining venues. For 2022, Resident stops were 6,582. . . Non-Resident stops were 7,268 for a total stops of13,850. So, this was over 50% that were nonresidents. Significant traffic safety efforts are conducted along the major roadways and additional funding is provided for enforcement through state funded Hazardous Moving Violation grants, DWI Enforcement grants and Occupant Protection grants.

Due to the reduced manpower, modified COVID schedules, and modified COVID work/activity procedures significantly impacted 2020 and 2021' s data the 2022 data is compared to 2019 as this is a more accurate representation rather than the previous two years. City of Independence, 2022 disparity index for black, Hispanic and Asian drivers dropped after remaining fairly consistent over the previous five years. Black driver disproportions dropped from 3.63 in 2019 to 2.5 in 2022. The metropolitan attractions and thirty-one low income housing apartment complexes have influenced the racial composition of the motoring public to the community. The Independence Police Department is a professional law enforcement organization that is committed to impartial, competent, and courteous service to the public without regard to race, creed or gender. Officers receive annual training on cultural challenges and issues by ensuring and maintaining accountability in part through the integrity of the racial profiling documentation process in compliance with Missouri State Statute.

234 Kansas City Int'l Airport Police

Agency Public Comments:

235 Kansas City Police Dept

Agency Public Comments:
Disparity indexes have not fluctuated significantly since the data collection began in 2000. However, these numbers should be interpreted cautiously. Specifically, relying on a census population for ages 16 and over as a benchmark does not provide a realistic picture of the driving population in Kansas City, Missouri at any given time. There are several major thoroughfares that run through the City, including I-29, I-35, and I-70 that contain a large percentage of drivers not reflected in the static estimated census population used for comparison purposes. Additionally, Kansas City is contained within a metropolitan population of approximately 2.1 million, which adds to the commuter population on these roadways. When examining search rates, the probable cause/authority to search reasons should be considered. When examining arrest rates, the arrest charges should be considered. Lastly, KCPD views vehicle stop data collection as one of many tools to address the issue of racial profiling. Other tools in use by the Department include training, community programs, and policies.

239 Kimmswick Police Dept

Agency Public Comments:

240 Kirksville Police Dept

Agency Public Comments:
Kirksville is home to two major universities whose enrollment data is not totally reflected in the census figure. Truman State University has 455 (11.5%) students listed other than white. They also have an additional 293 (7.4%) International students according to the 2022-2023 enrollment statistics. ATSU enrollment for the fall of 2022 has 315 (46%) students listed as non-white. The majority of ATSU students, 99% come from outside of the Kirksville area. The City of Kirksville has seen a significant increase of families from the Democratic Republic of the Congo in recent years. As an example, the Kirksville RIII School District reports 403 students identifying as non-white enrolled in K12 for the 2022-2023 school year. Kirksville is located on one of the few major north-south highways (Highway 63) that services northern Missouri and southern Iowa. Kirksville is the largest city for miles and is the cultural/economic hub for a very large area. This explains some of the daily diversity of Kirksville and of those not counted in the city's census information.

Agency Public Comments:

246 Laclede County Sheriff's Dept

Agency Public Comments:

247 Ladue Police Dept

Agency Public Comments:
The population "estimates" traditionally used in the Vehicle Stop Report (VSR) are not a true reflection of the racial diversity represented in Ladue on any given day and do not take into consideration the population of the surrounding area. As stated in the Attorney General's report, "the Disparity Index is highly problematic because: i) it is sensitive to the choice of the benchmark population; ii) as a ratio, it is affected by changes in both the numerator and denominator; and iii) it is not meaningful to compare the Disparity Index across communities with different percentages of minority populations."

Ladue is home to several major thoroughfares, which are used to connect Ladue to people from all over St. Louis City, St. Louis County, and throughout Missouri. I-170 and US 64/40 both travel through Ladue, along with

several city streets which all carry tens of thousands of vehicles through Ladue daily. The transitory population is far contrasting to the residential population and is more reflective of the demographics of this State and St. Louis County.

Our concern is that the residential data used in the VSR varies greatly and does not provide an accurate account of the diverse transitory population that truly represents the diversity within the City of Ladue at any given time. Simply using St. Louis County, the State of Missouri, or any surrounding jurisdiction's population percentages would drastically change the outlook of the Disparity Index and would more accurately reflect our department's continued commitment to fair and impartial policing.

248 Lafayette County Sheriff's Dept

Agency Public Comments:

249 Lake Lafayette Police Dept

Agency Public Comments:

250 Lake Lotawana Police Dept

Agency Public Comments:

251 Lake Ozark Police Dept

Agency Public Comments:

252 Lake St. Louis Police Dept

Agency Public Comments:
The city of Lake Saint Louis is bordered by I-70 to the north and I-64 bisects the south end with a recent addition of Hwy 364 as a new connector highway throughout St. Charles County. A large shopping center is just north of I-64 and a retail district lies directly to the south. Workers routinely travel both interstate corridors west to the Wentzville GM Plant and to major employers in O'Fallon and other points east. Additionally, the population of our city is greater than indicated from the 2020 census results. As of 2020, the population of the city shows 16,864. Due to these factors, calculating a disparity index based on comparison of ethnicity of drivers stopped with the ethnicity of the city's population may be misleading due to the transient traffic.

Agency Public Comments:

263 Lebanon Police Dept

Agency Public Comments:

264 Lee's Summit Police Dept

Agency Public Comments:
The rapid growth of Lee's Summit is outpacing the ability of census data to track the City's population of all demographics. As a local example, the data underrepresents the diversity of the population, reporting 7.85% African American residents while the school district reports 12.6% of students are African American, almost a 5% difference. Lee's Summit is also a retail, education and employment destination, attracting residents from adjacent urban centers with higher minority population percentages (25 – 40%) not reflected in the population data. The driving population statistics reflect traffic on major arterial roadways, such as I-470, M-291, US-50, and M-150. This through traffic is illustrated by the fact that over half of all individuals stopped are non-residents. The highest statistically significant search rate indicates African Americans are searched at a factor of 3.56, but this includes 148 "searches" mandated incident to or inventory due to arrest or the seizure of contraband in plain view. Only ten searches were based upon consent, along with 32 for reasonable suspicion (smell of alcohol or drugs or suspicion of a weapon) out of 3,849 traffic stops, or 1%. The police department continues to select, hire and train a diverse workforce to reduce the potential

for bias in policing.

Agency Public Comments:
Maryland Heights has 1900 businesses, which employ 41,776 people. Maryland Heights is the host city to Hollywood Casino, which had 3,784,546 visitors in 2022. The 20,000 seat Verizon Wireless Amphitheater had 398,178 visitors in 2022. The city has 22 hotels with 3,706 rooms. Maryland Heights has 60 liquor establishments selling alcohol by the drink. Finally, the section of I-270 in Maryland Heights has an average daily traffic count reported by MoDOT of 134,436 vehicles. The annual demographics of the 49,069,140 vehicles on I-270; the 3,784,546 visitors to the casino; the 398,178 visitors to the amphitheater and the 41,776 people employed in Maryland Heights are not known and impact the validity of this report.

Agency Public Comments:

389 Platte County Sheriff's Dept

Agency Public Comments:

The Platte County Sheriff's Office provides patrol and traffic enforcement services in an area that includes multiple major interstate corridors, a large shopping and entertainment district, casino, many hotels, and the Kansas City International Airport. It is bordered by Kansas City, KS, Kansas City, MO, and Leavenworth, KS, with minority populations of 49.0%, 40.3%, and 25.3%, respectively. It should be noted that 70% of all 2022 traffic stops by Platte County personnel, were reported as nonresident drivers. Although the racial makeup of all of the nonresident drivers traveling Platte County roadways is unknown, it is unlikely to accurately reflect the racial and ethnic makeup of the county's population. The Platte County Sheriff's Office prohibits racial profiling by policy and is committed to ensuring impartial public safety service regardless of race, age, gender or other factors. Officers receive annual racial and cultural sensitivity training and the Sheriff's Office maintains accountability through the racial profiling reporting process in compliance with Missouri State Statute. Data included in the Platte County report includes stops conducted in unincorporated Platte County and the jurisdictions of Camden Point, Dearborn, Houston Lake, and Lake Waukomis.

390 Platte Woods Police Dept

Agency Public Comments:

Our city has a small population of 429 residents, which is not representative of the diverse demographic composition of the over forty million vehicles traveling through our city annually. These motorists are primarily en-route to entertainment districts, shopping areas, hotels, restaurants, multifamily housing complexes, and the Kansas City International Airport. We have an Interstate and four other major traffic arteries that intersect our city. The demographic composition of drivers at any given time may not reflect our local population, contributing to the disparity in the index. We continually work diligently to ensure equitable policing practices that promote the safety and well-being of all that live, work and visit our city. We are dedicated to building trust between our agency and

the community.

Agency Public Comments:

414 Rich Hill Police Dept

Agency Public Comments:

415 Richland Police Dept

Agency Public Comments:

416 Richmond Heights Police Dept

Agency Public Comments:
The Vehicle Stops Report compares the race of drivers in all traffic stops made by a police agency to the racial makeup of that agency's population. Richmond Heights' African American population is under 9% of the total population of the City. Richmond Heights borders a major metropolitan city with a near 50% African American makeup while residing in a county with nearly a 25% African American population. It stands to reason that our Department's disparity index is mathematically skewed by this.

417 Richmond Police Dept

Agency Public Comments:

418 Ripley County Sheriff's Dept

Agency Public Comments:

419 Riverside Police Dept

Agency Public Comments:
The Riverside Police Department, by policy and practice, prohibits racial profiling. Some factors dramatically increase the driving population above Riverside's cited driver-eligible population. Those factors include a daytime population that grows by 87%; the presence of a riverboat casino; bordering on two major metropolitan cities (Kansas City, MO and Kansas City, KS); and state and federal highway routes traveling through the City with a daily traffic count approaching 300,000 vehicles.

Agency Public Comments:
In reference to our "Vehicle Stops Report", I would wish to advise your office that the City of St. John, MO experiences, on average, more than 28,000 additional non-resident persons traveling through our jurisdiction on a daily basis. The influx of individuals are either passing through our City due to travels in or out from Lambert International Airport, commuting to their work location, and/or visiting our St. John Plaza shopping center.
I understand that our "Stops" statistic percentages do not reflect an accurate comparison to our current census demographic data; however, the aforementioned gives reason for the accounted off-set. Thank you for your review and consideration.

Agency Public Comments:

490 Thayer Police Dept

Agency Public Comments:

491 Tipton Police Dept

Agency Public Comments:

492 Town and Country Police Dept

Agency Public Comments:
The disparity index is based upon the population demographics of the City of Town & Country, which has a current population of 11,640 (disparity index only indicates 9509) with an African American population of .9% (US Census Bureau). This does not accurately reflect the demographics of the true motoring population through the City daily. Every weekday, nearly 415,000 motorists travel through our city on the 2nd most voluminous interchange in the State (Interstates 64/40/270). Our motoring public is more reflective of the demographics of the State and St. Louis County, which are comprised of African American populations of 11.4% and 24.2% respectively (US Census Bureau). The stop data for Town & Country Police indicate over 71% of stops occuned on either the interstates, US Highway

or State Highway, of which, 83% were initiated for hazardous moving violations. Overall, only 23% of the stops were African American drivers. The natural implication of this statistic is that the ratio of the race of motorists stopped for violations would reflect state and county demographics, not the residential population of the City of Town & Country.

524 Waynesville Police Dept

Agency Public Comments:
According to the United States Census Bureau the estimated population of Waynesville as of, April 1 st, 2020, is 5406.
Major routes through Waynesville are Interstate 44 and US Route 66, that exists as a scenic route through the entirety of Waynesville. Route 17, crosses Interstate 44 at exit 153 at Buckhorn and turns north to Crocker. South of Interstate 44, Highway 17 hugs the western edge of Fort Leonard Wood, near Laquey, and joins Highway 32 in Roby. Highway T runs north from Highway 17 at Waynesville to Swedeborg.
Waynesville, St. Robert, and Fort Leonard Wood along with their surrounding rural areas are served by the Waynesville R-VI School District which is by far the largest in the county. There are currently 5821 students and 874 staff members at the school daily. The City of Waynesville borders Fort Leonard Woods West Gate.- Fort Leonard Woods population per the US Census Bureau was 15,959 at the 2020 census. The racial makeup of the CDP as of July 1,2019 (V2019) was 60.0% White alone, 16.5% Black or African American alone, 2.8% American Indian, 4.7% Asian alone, 0.4% Hawaiian or Pacific Islander, Hispanic or Latino of any race were 23.3% of the population.
I believe all the information presented may provide additional information to clarify the data and provide a more accurate reflection of the demographics of our driving population. I hope this information will improve our ability to provide a more balanced report to the public.
